## Cool earmuffs for kids

### Protect children's ears

Children are too often exposed to too much noise, which is too loud for them. Research has indicated that 1 out of every 8 children is left with permanent hearing damage because of this. Loud noise can also overload young children, due to which they can get stressed or have trouble concentrating and sleeping.

### Multifunctional

The Alpine Muffy has been especially designed for the ears of small children and can be used in various noisy situations, such as parties, parades, firework displays, car and motor races and concerts. These earmuffs for kids are also very suitable for being able to learn and read in a more focused manner either at home or at school.

### Fits all

The robust and comfortable Alpine Muffy is made of high-quality material. The adjustable headband covered in soft fabric fits any child's head so they won't grow out of it. The Alpine Muffy earmuffs can be worn by children of all ages. However, we recommend that they are not used for children less than 2 years old.

### Trendy design

The Alpine Muffy is available in pink, blue, black, white and orange. All five designs have a colourful, striped headband. The product is a Dutch design.

### Protect&Go bag

Alpine has designed a special case to store the earmuff handily and hygienically. Each package contains a free Protect&Go bag.

### Unique product features

- Very comfortable because of its soft headband
- Adjustable size, fits any child
- Foldable, easy to take with you/store
- Available in five colour designs, for boys and girls
- Robust and durable, very high quality

## Alpine Hearing Protection - Consistently innovative

Alpine Nederland B.V. was founded in 1995 and is one of few manufacturers in the world with hearing protection as its core business. We are continuously working on improving our products, in collaboration with end users. Alpine earplugs are sold across the globe in over 40 countries. All Alpine products have been officially tested by independent inspection bodies, and have the CE certification.
