

CARL MARTIN

POWERJACK

The Carl Martin Powerjack universal power supply for guitar effects employs switch-mode technology, allowing it to be used from 100V-240V. The Powerjack delivers 1670mA of stabilized 9V DC power at any voltage. Please follow all safety rules and regulations for the geographic region you are located in, and please consult your effects pedal manual before connecting the Powerjack to ensure correct voltage, polarity and plug type.

The Carl Martin Powerjack is available in three models.

Model. 08210-1
EURO Plug type

Model. 08210-2
USA Plug type

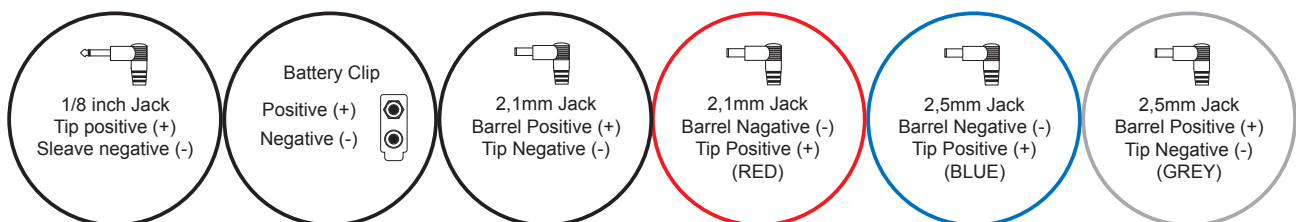

Model. 08210-3
UK Plug type

Included with each Powerjack are the following cables and adaptors :

Daisychain with five 2.1mm jacks; barrel positive [+] tip negative [-]

Warning: to Reduce the risk of fire or shock, do not expose the Carl Martin Powerjack to rain or moisture and do not install it near any heat sources. Protect all wires and plugs from damage, and unplug the unit when not in use. Please do not attempt to remove screws or covers; refer all servicing to a qualified service technician.

Warranty: Carl Martin Research warrants the manufacturing, material and proper operation for a period of one year from date of purchase. Carl Martin will replace defective parts, make necessary repairs or replace the unit at the discretion of our technicians. The warranty applies only to the original purchaser of this product, and excludes any damage or faulty operation resulting from misuse, neglect or unauthorized service.
