

As musicians, we sometimes have to supply 'more' gear, in order to adequately meet the demands of a show.

The Carl Martin Route Box helps simplify some of those situations. For instance, you might find yourself with two guitars, two amps and one pedal-board.

By plugging each guitar into each Instrument In, out to the pedal-board and then back from the pedal-board to the Input, and finally from Amp 1 & 2 Out to each of the amplifiers, you have full use of your pedal-board while using either Guitar 1 or 2 through Amp 1 or 2.....genius!

## SPECIFICATIONS

Power..... 9V DC  
 9V DC adapter plug (+ on ring)  
 Power consumption.....15 mA  
 S/N ratio.....62 dB  
 Input Amp input.....1M Ohm  
 Instrument inputs....True Bypass

Output 1.....100 Ohm  
 Output 2.....100 Ohm  
 Dimension.....120/95/45  
 Weight:.....0,350 Kg
